

Mahmoud Mohamed Saeed

IT Engineer | Network Automation | Software Developer

Location: Kosti, Sudan **Phone:** +249 0904628457 | +249 0110218812 **Email:** Mahamud199mohamed@gmail.com **Portfolio:** mahmoud-portfolio.lovable.app **LinkedIn:** [LinkedIn Profile](#) **GitHub:** [GitHub Profile](#)

Professional Summary

Motivated Information Technology student at White Nile University with hands-on experience in network engineering, automation, and software development. Holds CCNA and CCNP certifications, with practical expertise in Cisco infrastructure, Python-based network automation, and full-stack application development. Passionate about designing efficient, automated solutions and building impactful technology products.

Education

Bachelor of Science in Information Technology White Nile University – Faculty of Computer Science & IT 2022 – 2026 (Expected) | Kosti, Sudan

Certifications

- **Cisco Certified Network Professional (CCNP)** | Network Plus Institute | 2026
 - **Cisco Certified Network Associate (CCNA)** | Network Plus Institute | 2024
 - **Mobile Application Development – Flutter** | White Nile University | 2024
-

Technical Skills

- **Networking:** Cisco Routers & Switches, Firewalls, VLANs, OSPF, BGP, VPN, Site-to-Site IPSec.
- **Network Automation:** Python, Netmiko, Ansible, Nornir, EVE-NG, GNS3.
- **Programming:** Python, JavaScript, Dart (Flutter), HTML5, CSS3.
- **Mobile Development:** Flutter / Dart – Android & iOS applications.
- **Web Development:** HTML, CSS, JavaScript – Responsive & interactive web apps.

- **AI & Data:** Machine Learning fundamentals, Data Mining, AI-integrated applications.
 - **Design:** Graphic Design (Logo, Brand Identity, UI/UX), AI-generated visuals.
 - **Tools & OS:** Linux, Git, GitHub, VS Code, Zabbix, Wireshark.
 - **Languages:** Arabic (Native) | English (Intermediate).
-

Key Projects

Enterprise Network Automation Lab

Technologies: Python, Netmiko, Ansible, EVE-NG, Cisco IOS

- Designed and deployed a dual-site enterprise lab in EVE-NG with 10+ Cisco routers and switches.
- Implemented a full network automation pipeline; all device configurations handled via Python/Netmiko scripts.
- Programmatically configured OSPF, BGP, VLANs, and inter-site VPN tunnels.

Mazaq Restaurant Management System

Technologies: HTML, CSS, JavaScript

- A comprehensive restaurant web system with menu display, order management, and an interactive UI.
- Implemented an admin dashboard for order tracking and menu updates.

Food Ordering System (Web + Android)

Technologies: Flutter, Dart, Web

- A cross-platform food ordering app combining a web frontend with an Android mobile app.
- Features include menu browsing, cart management, and real-time order tracking.

E-Commerce & Booking Platform

Technologies: HTML, CSS, JavaScript

- A full-stack web platform supporting product listings, user registration, and an advanced booking system.
- Includes separate admin and user dashboards with role-based access control.

AI Exam Application

Technologies: HTML, CSS, JavaScript

- A self-contained 60-question exam app covering AI fundamentals, search algorithms, and applied AI tools.
- Deployed for use in university AI course assessments.

Naja7 AI – Intelligent Agricultural Assistant (Graduation Project Proposal)

Technologies: Computer Vision, Arabic NLP (Sudanese dialect), Data Mining, Marketing AI.

- Graduation project proposal: An AI-powered agricultural assistant for Sudanese farmers.
- Planned modules: Computer Vision (crop disease detection), Arabic NLP (Sudanese dialect), Data Mining, Marketing AI.

Notes:

- This resume is formatted to be compatible with Applicant Tracking Systems (ATS) through the use of clear, single-column text and standard headings.
- It is recommended to save the resume as a text-based PDF (without embedded images as part of the design) or as a .docx file for optimal ATS compatibility.
- Avoid using tables, multiple columns, text boxes, or complex graphic elements that may confuse ATS.
- Focus on using relevant keywords for the target job to increase the chances of passing ATS screening.
